## Phylum: Characteristics & Classification

Echinoderms are found in all of the world's oceans and are strictly saltwater animals. They are voracious predators, feeding on clams, oysters, abalone, mussels, and other shellfish.

## Major Animal Phyla & Their Characteristics

In this lesson, we'll be learning about the nine major phyla of Kingdom Animalia. We'll go over what types of animals are in each phylum, as well as describing some characteristics of the phylum's ...
